Technologies: Machine Learning (ML), Deep Learning (DL), MongoDB

IDEs and Platforms: Eclipse (Java), Jupyter Notebook (Python)

Soft Skills: Collaboration, Teamwork, Planning, Communication, Leadership, Time Management, Presentation Skills

Projects

Empowering Education: Voice-Based Assessment for Disabled Students (2025)

- Objective: Use NLP to help students with physical disabilities in hand participate in exams via voice input.
- Tools Used: NLP, Text processing, Semantic analysis, Keyword extraction.
- Outcome: Enabled students with mobility challenges to provide answers through voice, removing the need for traditional writing.

Toxic Comment Classification Using Deep Learning (2024)

- Objective: To classify and remove negative, disrespectful, abusive comments from social media platforms.
- Tools Used: Python, Machine Learning and Deep Learning, NLP, Data Handling and Storage, Kaggle Dataset.
- Outcome: Developed a system that analyzes user-typed words based on predefined word lists.
